

# MedComm Consultancy

*Expertise in Publication Writing and iEnvision Management*

## Welcome to MedComm Consultancy

Our commitment to excellence, attention to detail, and expertise in publication writing and management make us the ideal partner for researchers, authors, institutions and pharma industries seeking to make an impact in their fields.

# About us

## Your Partner in Publication Writing and Management

MedComm Consultancy offers a wide range of publication writing and management services, covering the development of diverse manuscript types, abstracts, posters, and oral presentations. Our comprehensive support includes stakeholder management, professional editing, quality checks, and journal submission including R2R, with expertise in managing publication systems like iEnvision/DataVision. Additionally, we provide Statistical analysis services tailored to meet the specific requirements of research publications.

# Vision

To deliver seamless, comprehensive end-to-end publication writing and management solutions to researchers, serving as a one-stop shop for all publication needs.

# Goal

With our team of expert writers, quality control specialists, professional editors, and graphical designers at your service, you can focus solely on reviewing and providing feedback on key scientific aspects while we handle all other tasks with precision and efficiency.

# UNIQUENESS: WHAT SETS US APART

- At MedComm Consultancy, we understand the importance of trust when choosing a partner for your research publications. That's why we guarantee cost-effectiveness, quality, and timely delivery as our pillars of service excellence.
- For your initial publication writing project awarded to us, we operate on a payment-after-delivery model, ensuring that you're only charged upon successful completion and once we meet your expectations. This approach underscores our commitment to your satisfaction and the establishment of a long-term partnership. Let us help you bring your research to the world with confidence and credibility.

# What We Do

## Manuscript Writing and Submission Support

- At our core, we specialize in writing various types of manuscripts, ranging from original articles to systematic reviews, meta-analyses, and beyond. But our expertise doesn't stop at writing. We offer comprehensive support throughout the entire submission process, tailored to your target journals. This includes managing responses to reviewers, ensuring adherence to journal-specific formatting guidelines, and providing meticulous quality control and editorial support until your paper achieves successful publication.
- We meticulously scrutinize every aspect, conducting thorough data and fact checking to ensure your manuscript attains the pinnacle of scholarly excellence.
- In essence, we don't just write—we shepherd your manuscript through every stage of its journey, from conception to publication, with unwavering dedication and precision.

# Abstract Writing and Congress Submission

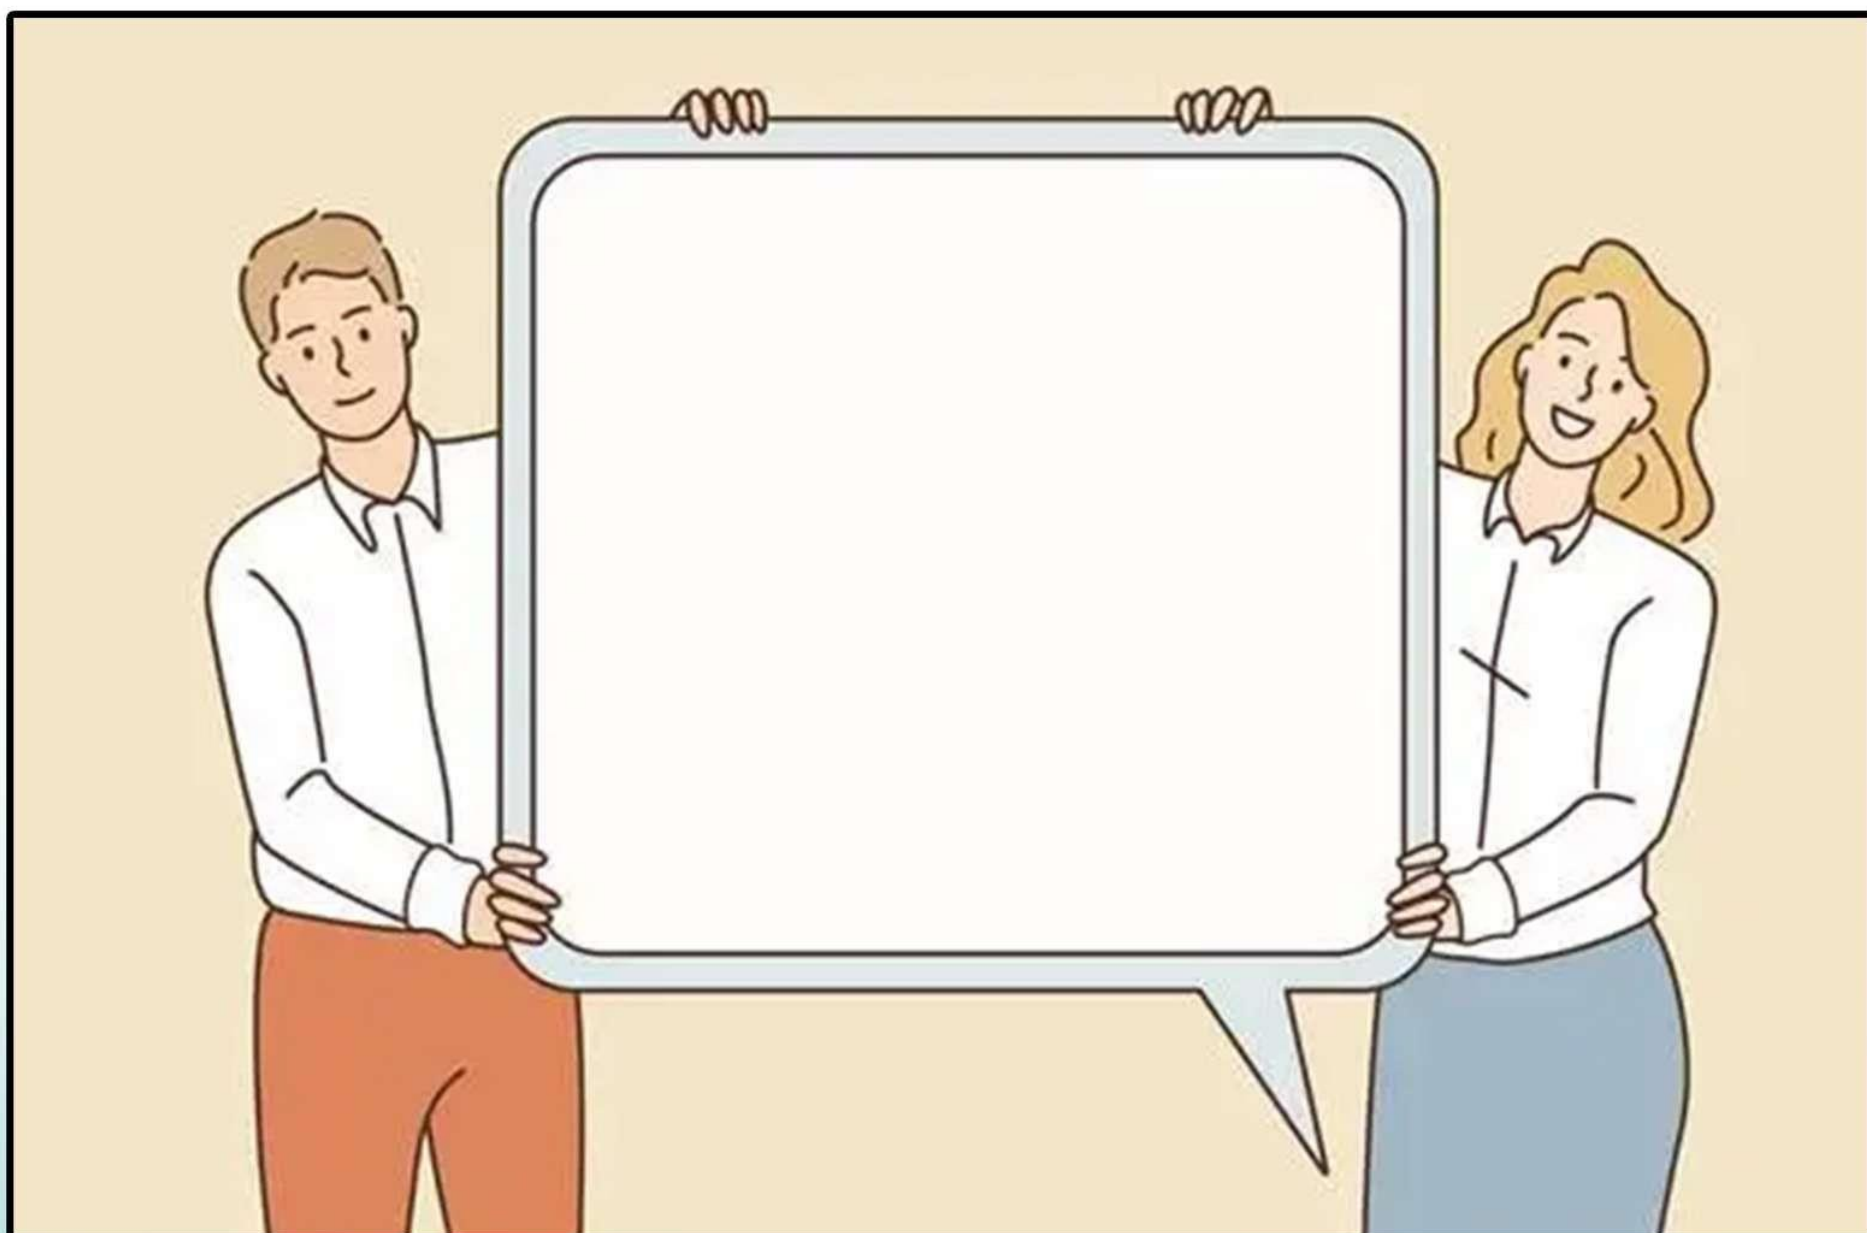

## Support

- We specialize in crafting compelling abstracts, including graphical abstracts tailored specifically for various congresses/conferences. Our expertise extends beyond writing; we provide meticulous editing, quality control support, and formatting services to ensure your abstract meets the requirements of your target congress.
- In addition to crafting the content, we handle the entire submission process on your behalf. This includes coordinating with the congress or conference organizers, ensuring timely submission, and dealing with any necessary correspondence.

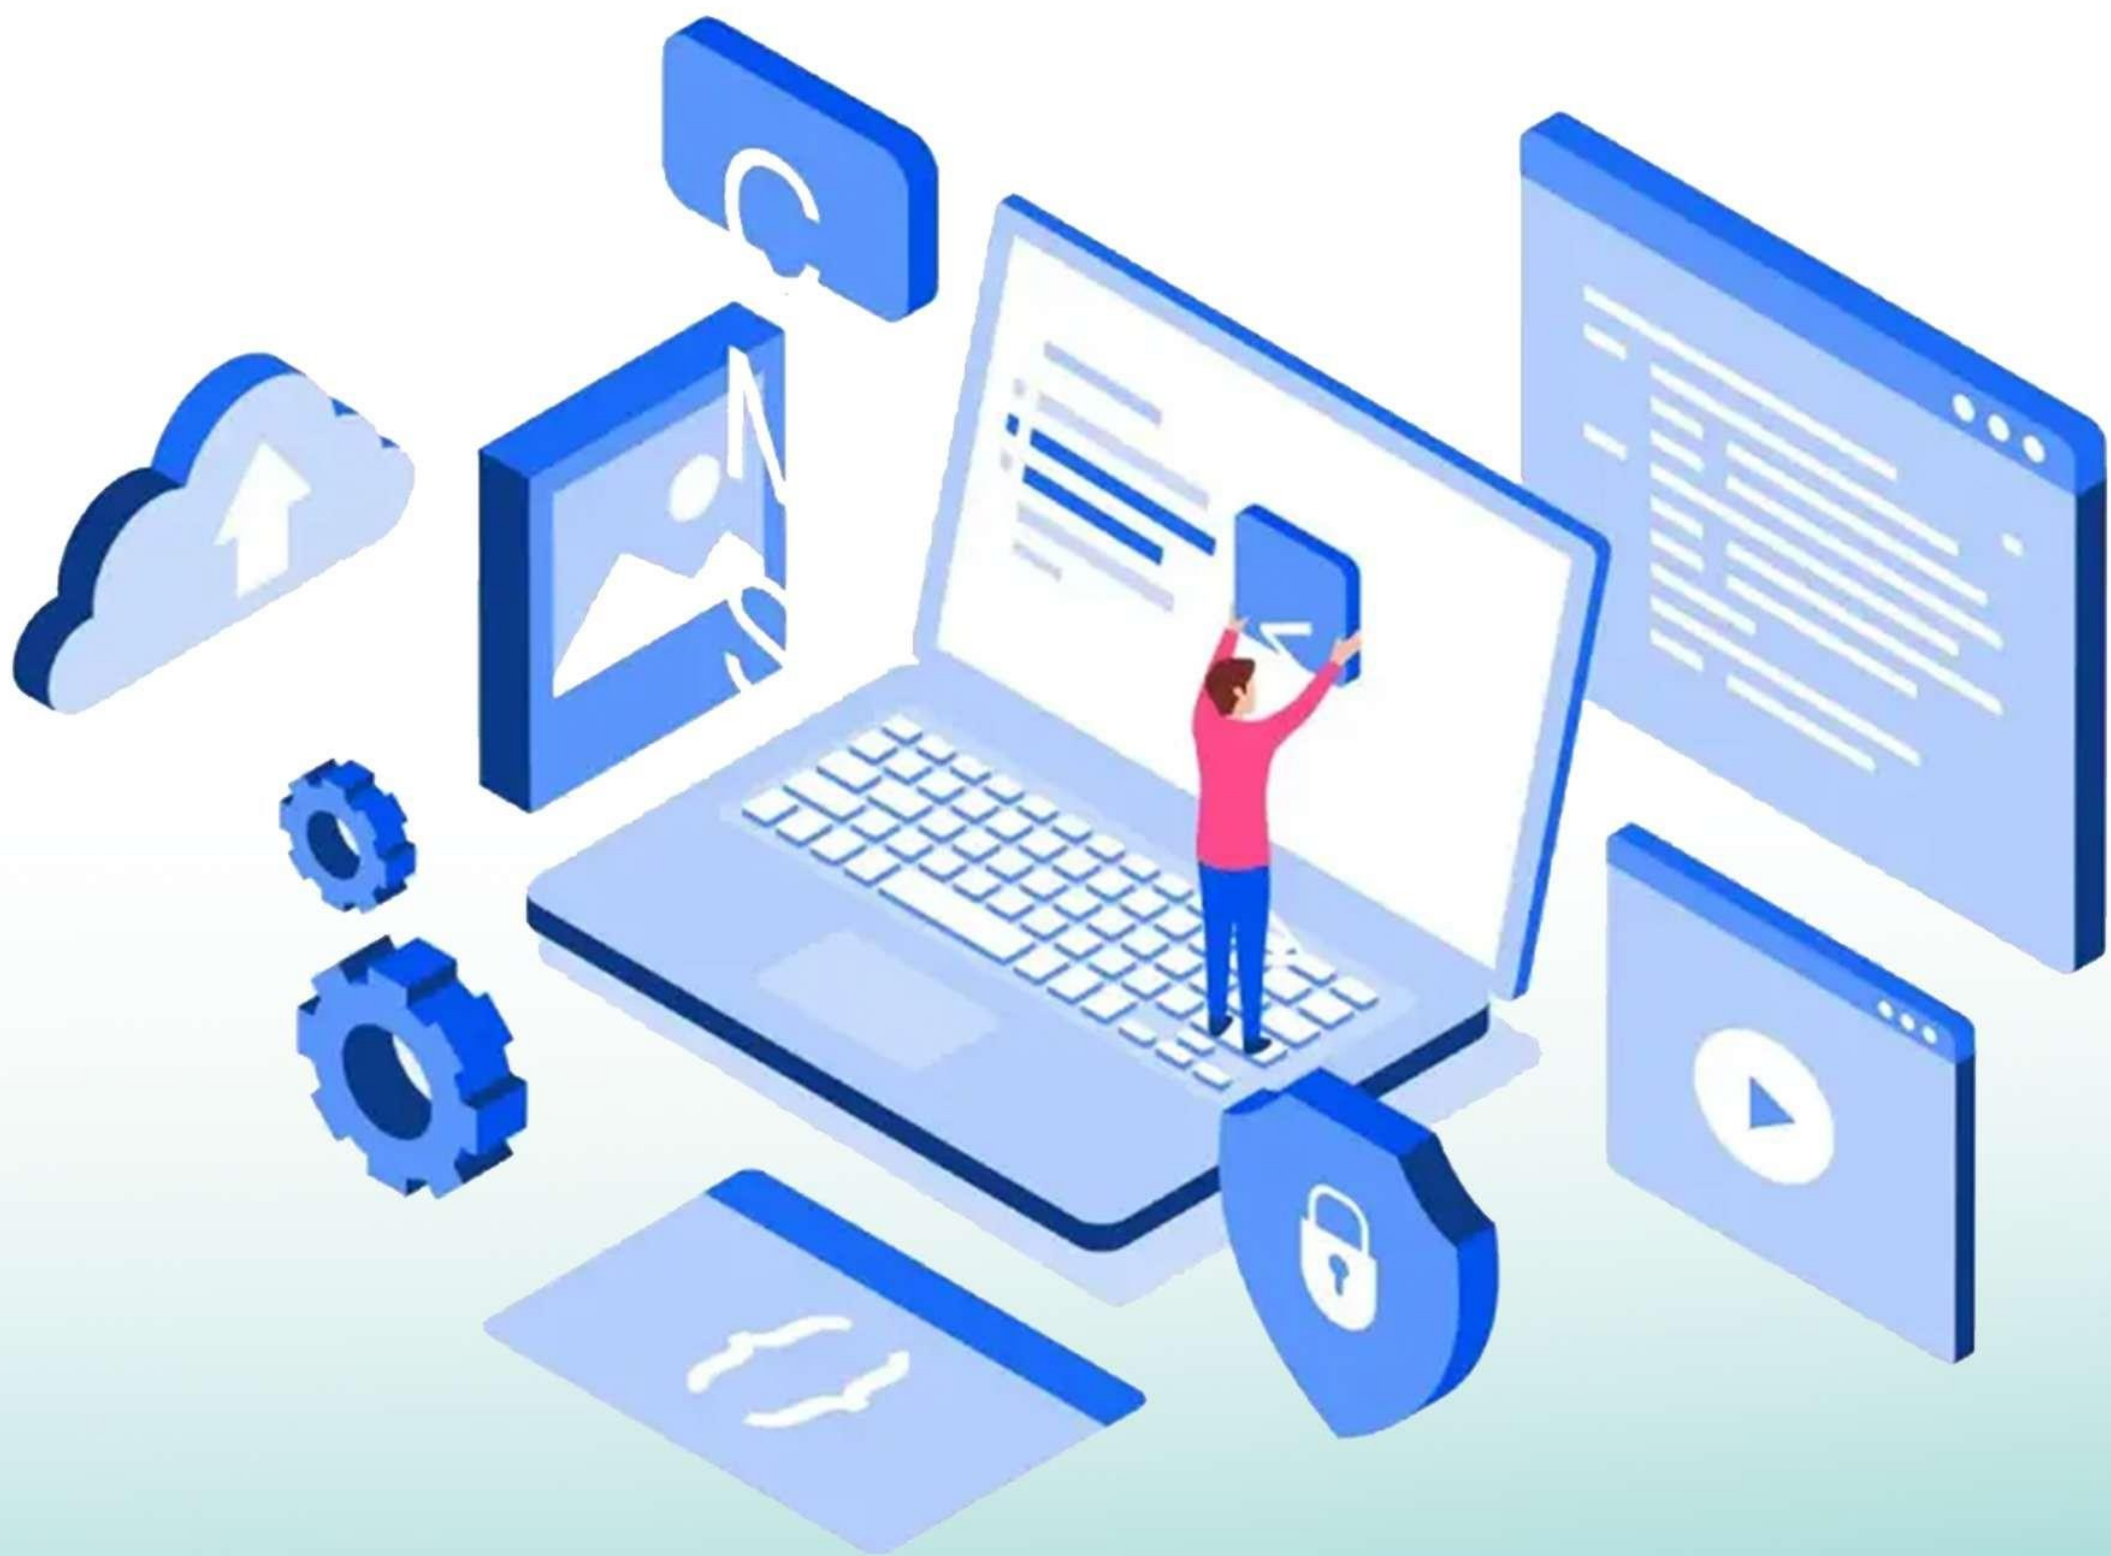

# Poster and Oral Presentation Development

- At MedComm Consultancy, we specialize in the development of impactful posters and oral presentations to effectively communicate your research findings. Our expertise spans poster layout design, graphical support, and content development, ensuring that your materials are both visually appealing and informative.
- We understand the importance of creating presentations that captivate your audience, which is why we meticulously craft each element to convey your message with clarity and professionalism. Whether you need assistance with designing eye-catching visuals or refining your content for maximum impact, we're here to help every step of the way.
- In addition to content creation, we also provide technical support to prepare print-ready PDFs for posters.

# iEnvision/DataVision Support

- In addition to offering writing and submission support, if you're seeking someone to manage a publication management system like iEnvision/DataVision to ensure compliance with your company policies, then you've come to the right place. Our expert writers at MedComm Consultancy are proficient in handling iEnvision/DataVision and are ready to take the responsibility of managing your publication process using these tools.
- With us as your partner, you can focus on reviewing core content while trusting that your publication process is handled with expertise and efficiency. Let us simplify the complexities of publication management for you.

# Stakeholder Management

- If you're seeking a writer who not only handles writing but also manages authors, stakeholders, and reviewers according to your company's processes and SOPs, we are ready to provide end-to-end support beyond just writing assistance. As part of stakeholder management, our writers take accountability for the following key aspects of publication management:
  1. Proactive Author Communication and Managing their Expectations
  2. Coordinating Reviews and Revisions
  3. Ensuring Compliance with Clients/Sponsors' SOPs
  4. Conflict Resolution Related to Manuscript Content
- By entrusting us with these responsibilities, you can be assured of a smooth and efficient publication process, with our writers handling all aspects of stakeholder management with professionalism and expertise.

# Infographics/Graphical Abstract/PLS

- If you're seeking to develop graphical abstracts or graphical plain language summaries (PLS) for your manuscript to engage your target audience, then you're in the right place. Our team includes dedicated graphic designers who closely collaborate with expert publication writers to ensure the core scientific content and design aspects are carefully crafted. Once we receive such requests, our experienced writers and graphic designers discuss and propose the best way to present your data graphically.
- With our comprehensive support, you can rest assured that your graphical abstracts/plain language summaries (PLS) will stand out and make a lasting impression in your chosen research community.

# Statistical Analysis Services

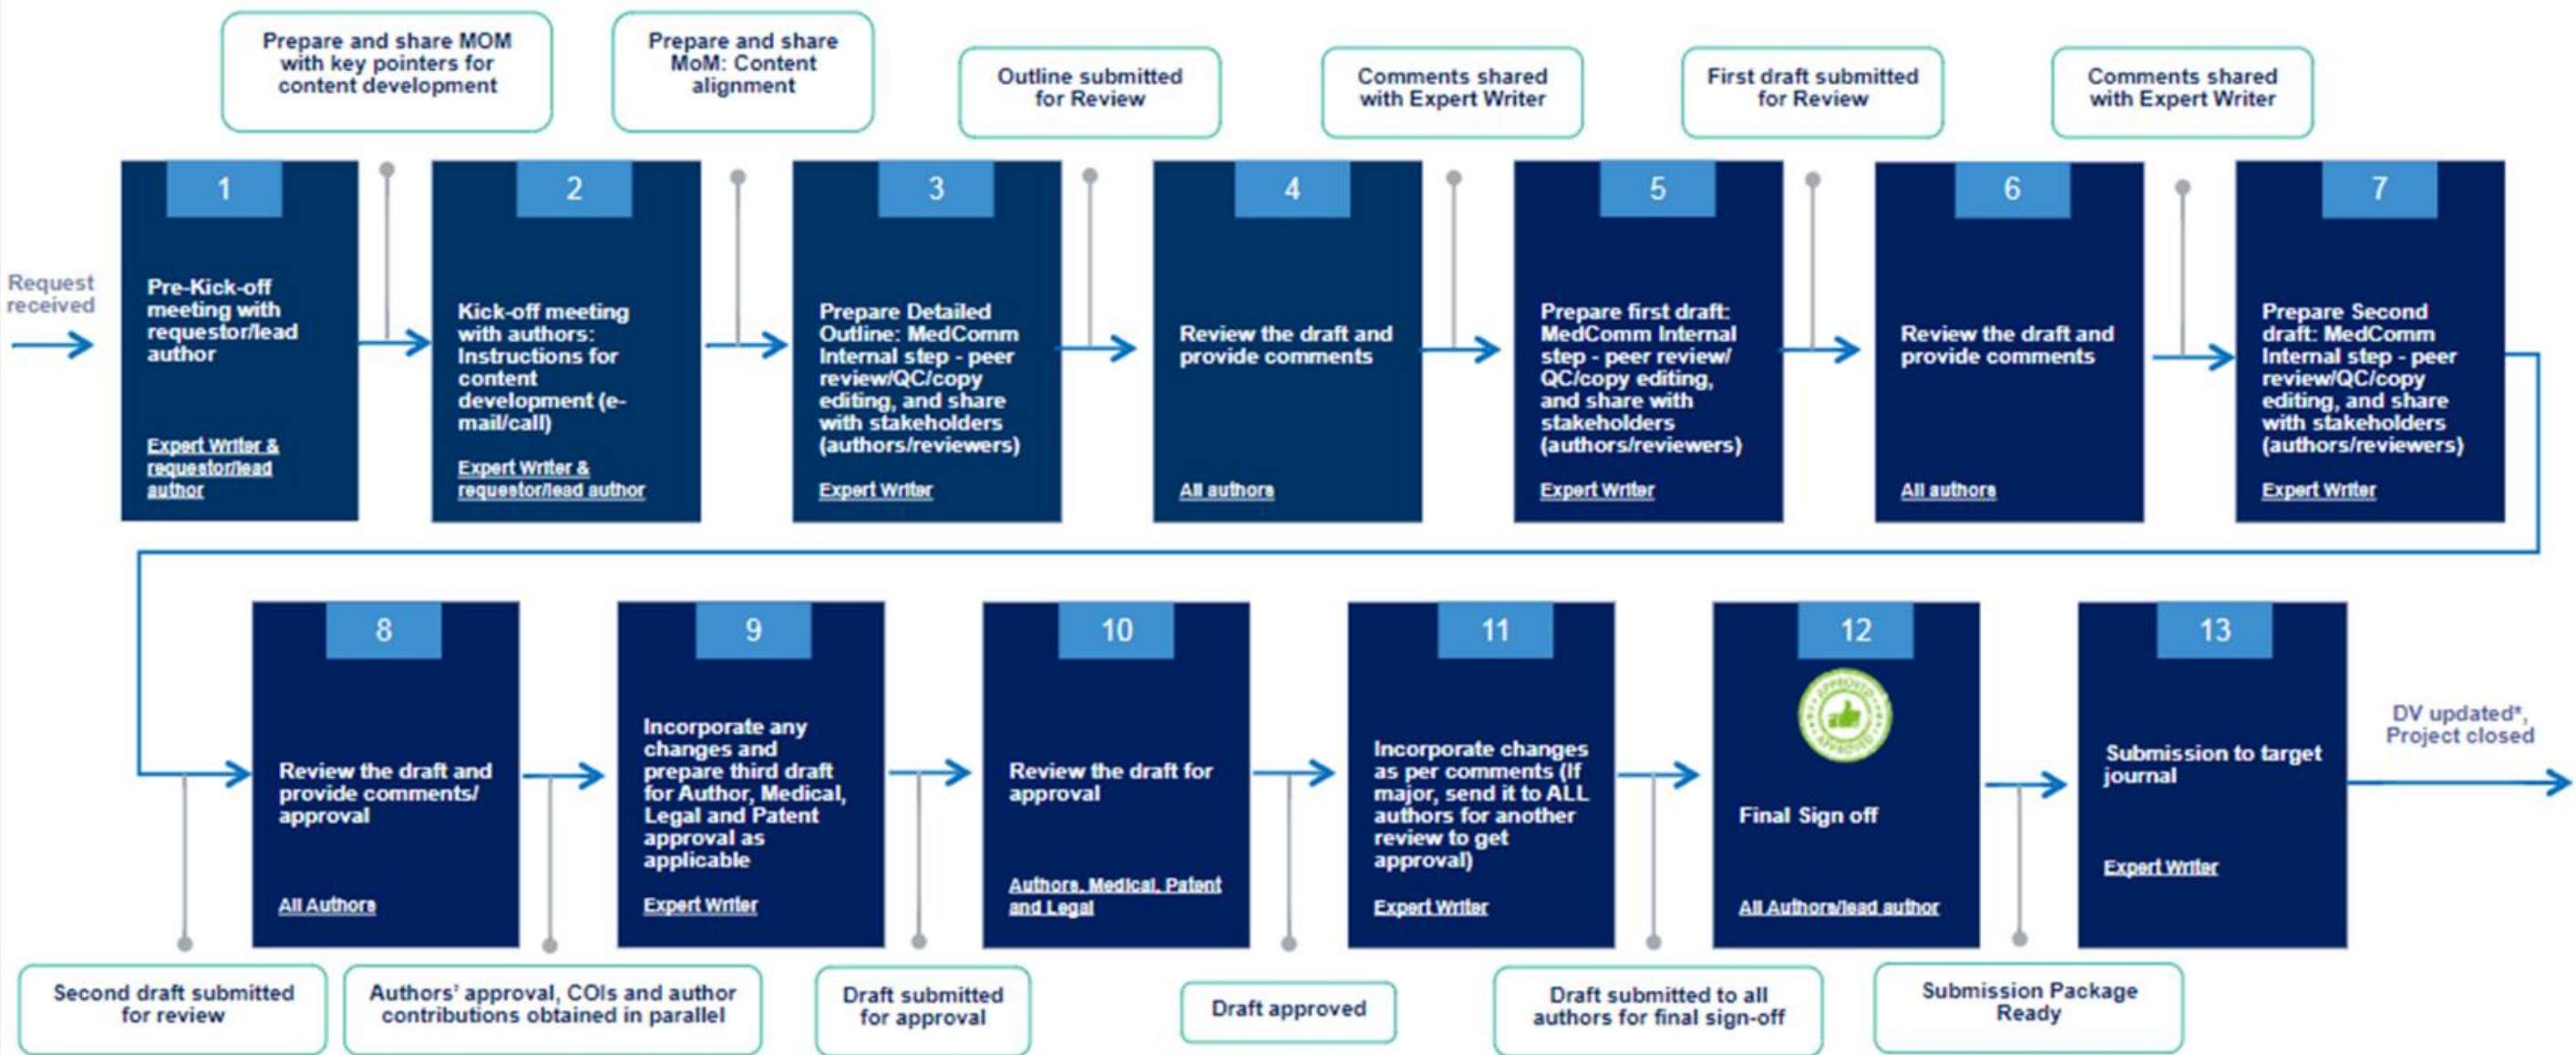

- Our team of biostatisticians and programmers is equipped to handle specialized requests from researchers for data analysis and subsequent publication. Whether you require statistical analysis using SAS or other non-SAS statistical analysis software, we tailor our services to meet the specific requirements of partner/collaborator/researcher.
- From initial data analysis to the final stages of publication, we work closely with our clients to ensure that their research findings are analyzed accurately and presented effectively to enhance the impact of their publications.
- Partner with us to leverage our statistical analysis services and elevate the quality of your research publications.

# How We Do

## Manuscript

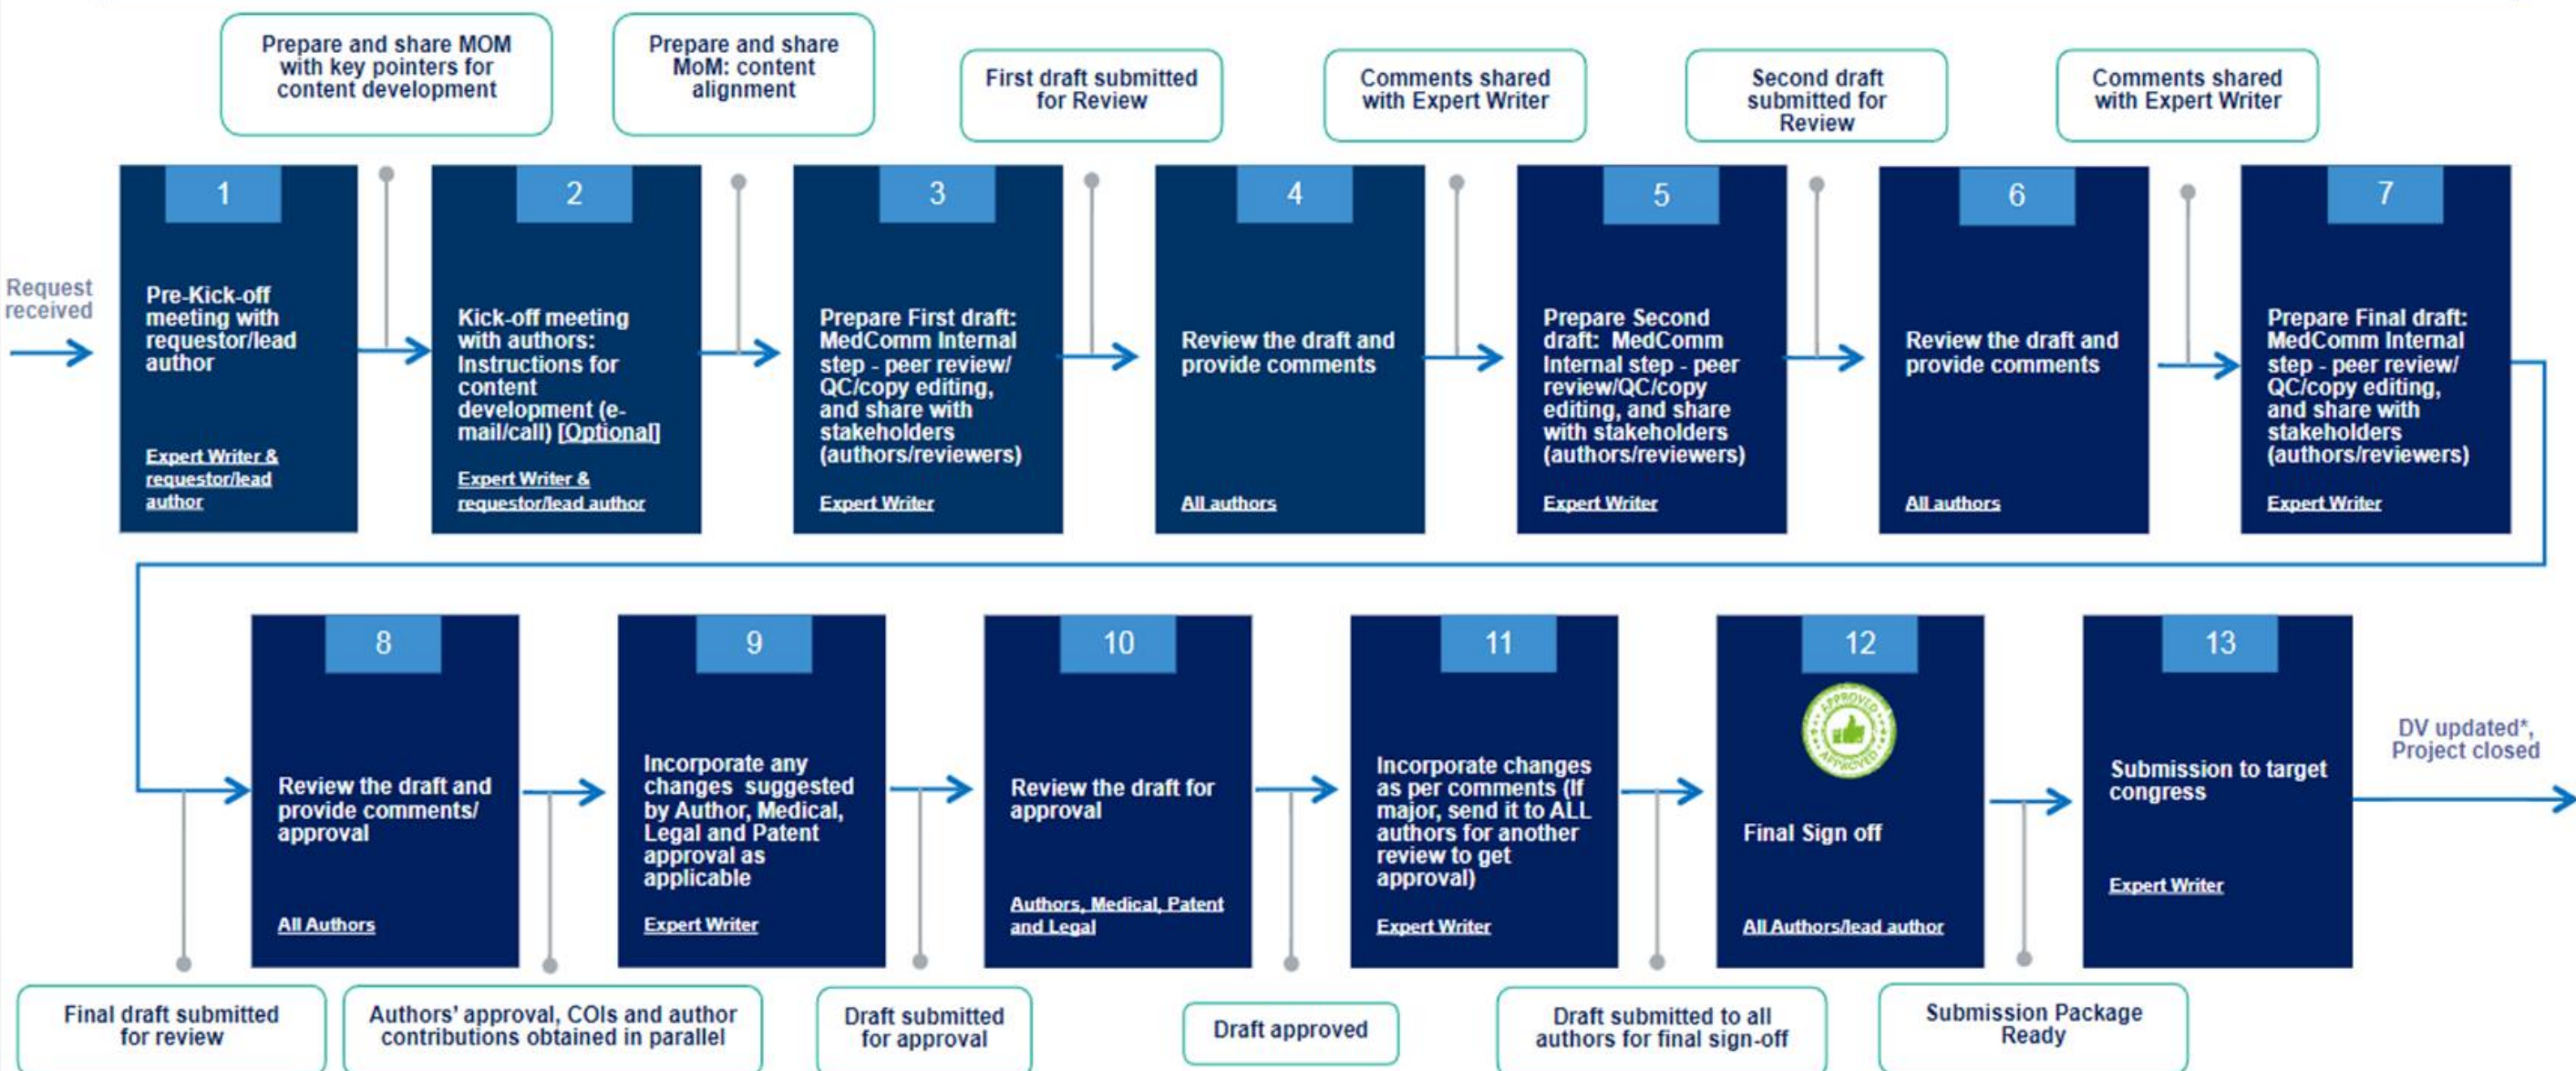

### Manuscript: End to End Support Process Map

Note: \*If support from iEnvision/Datavision is requested, all necessary steps, as per the client's SOP, will be completed at the appropriate stage of the publication process. During the initial call with the requester, MedComm will request access to the required DV portal. Common DV steps include: Endorsement, author agreement, content alignment, sharing of all drafts via DV including communication with authors, COI and disclosure checks, data integrity and accuracy checks, legal approval (CLEAR or MATRIX), and patent review etc. This may vary from client to client, so clients are required to provide the process map or SOP to be followed. Stakeholder management involves coordinating with authors on process and review comments, ensuring completion of all required tasks through follow-up.

## Abstract

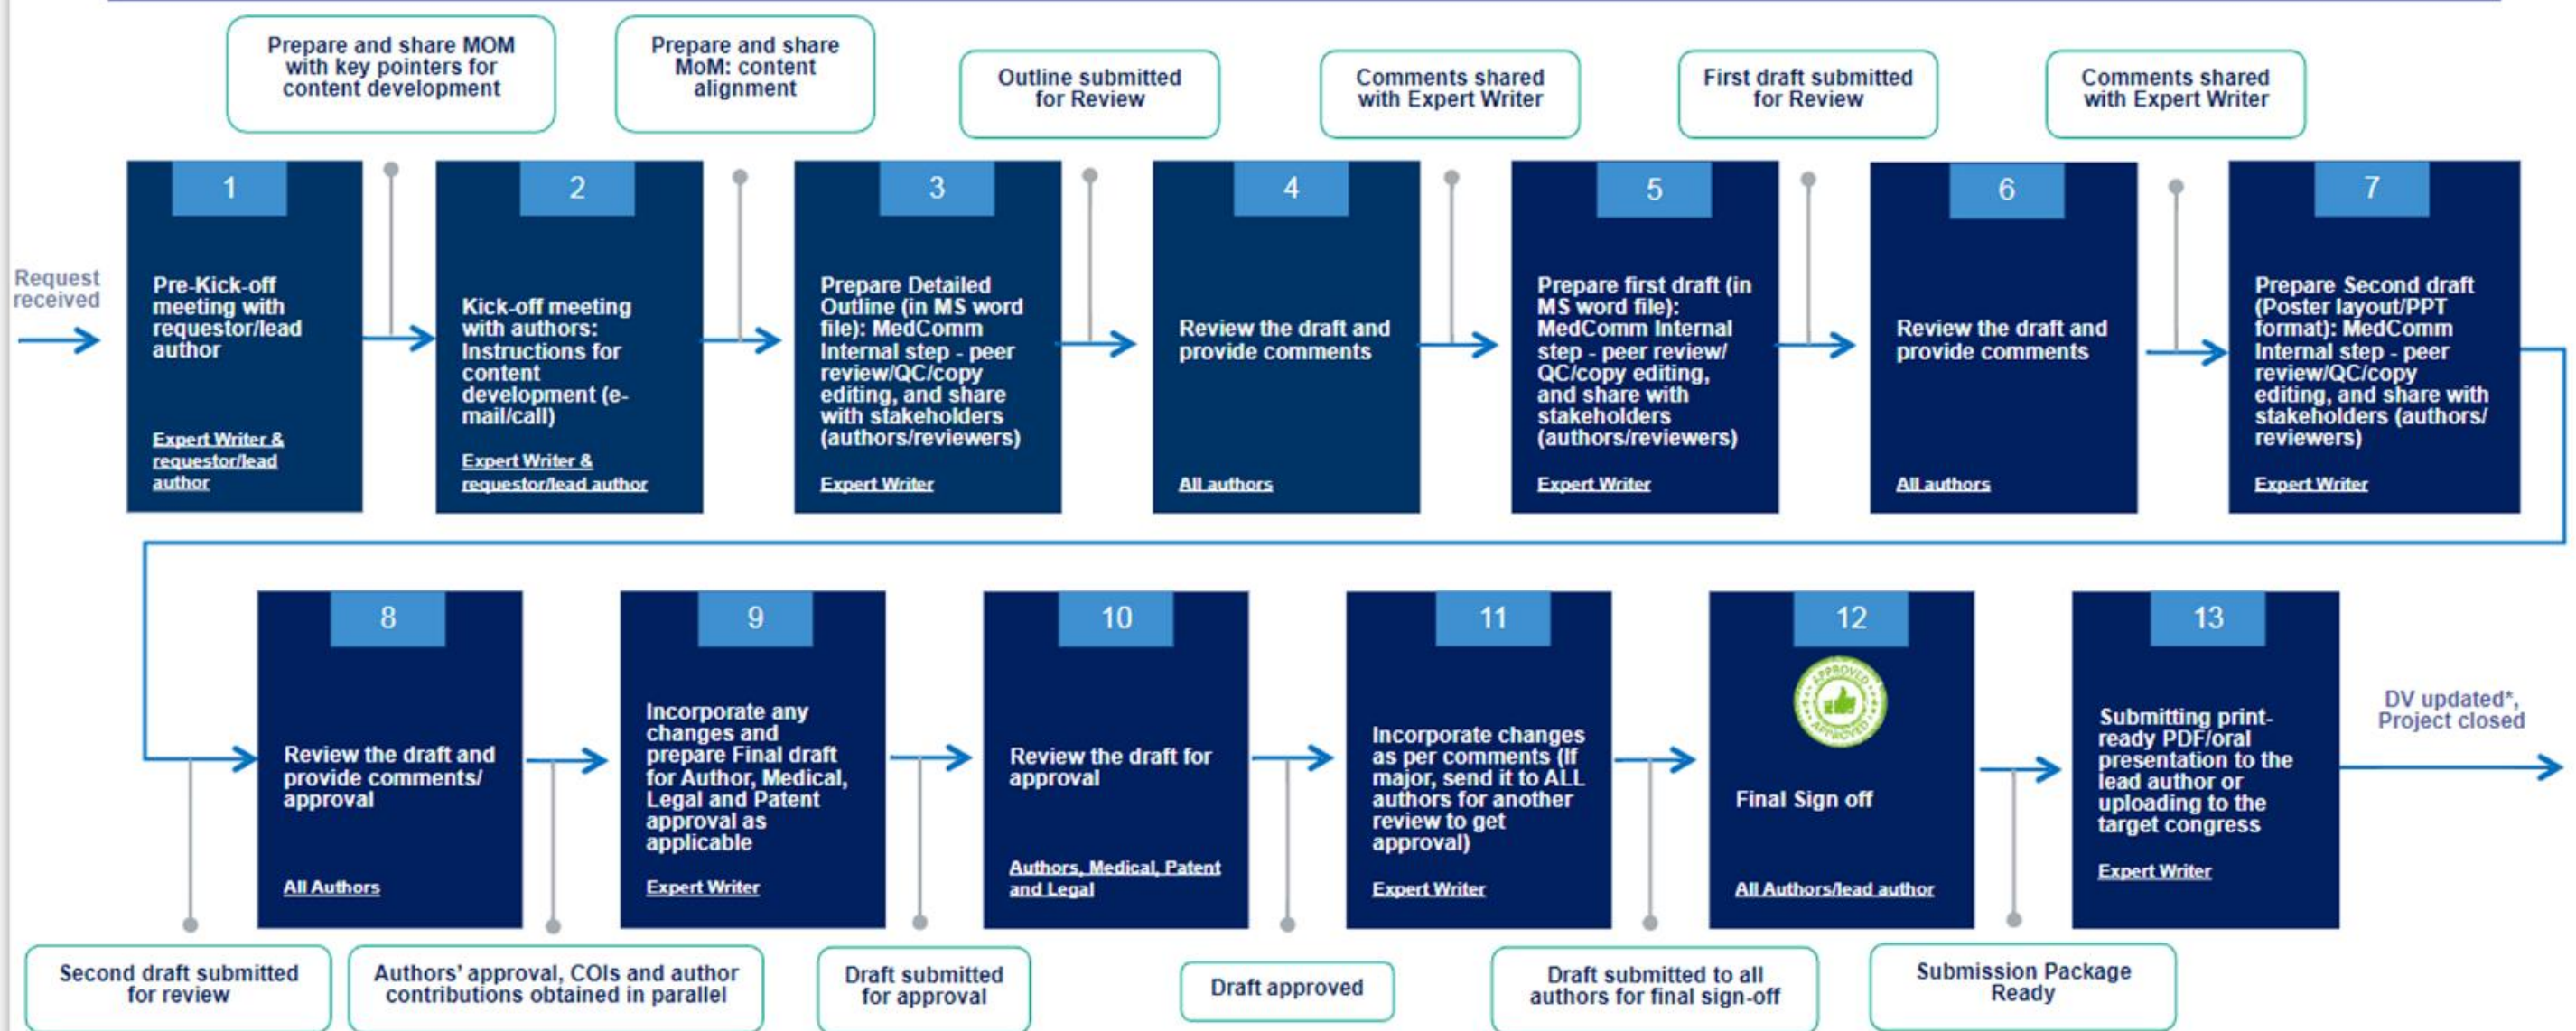

### Abstract: End to End Support Process Map

Note: \*If support from iEnvision/Datavision is requested, all necessary steps, as per the client's SOP, will be completed at the appropriate stage of the publication process. During the initial call with the requester, MedComm will request access to the required DV portal. Common DV steps include: Endorsement, author agreement, content alignment, sharing of all drafts via DV including communication with authors, COI and disclosure checks, data integrity and accuracy checks, legal approval (CLEAR or MATRIX), and patent review etc. This may vary from client to client, so clients are required to provide the process map or SOP to be followed. Stakeholder management involves coordinating with authors on process and review comments, ensuring completion of all required tasks through follow-up.

# Poster and Oral Presentation
